

DESIGNED FOR
MEE AUDIO IN-EAR MONITORS

MX*PRO SERIES

M6*PRO

BTC2 BLUETOOTH® WIRELESS ADAPTER CABLE

FEATURES

POWERED BY

Qualcomm® aptX™
Low Latency

- Enjoy your in-ear monitors wirelessly with devices that do not have a headphone jack; compatible with phones, tablets, computers, and other Bluetooth stereo audio transmitters
- DC connectors compatible with MEE Professional MX PRO (all models) and M6 PRO in-ear monitors (earphones not included)
- Qualcomm® aptX™ and aptX™ Low Latency codecs ensure maximum wireless audio quality over Bluetooth and improve lip-syncing with compatible devices; also features on-demand dynamic audio enhancement with available Bass Boost and Vocal Boost modes
- Built-in rechargeable batteries and ultra-efficient Bluetooth 5.0 technology provide up to 9 hours of talk and 8.5 hours of music playback time
- Features IPX5 sweat- and weather-resistance, ergonomic design with flex-wire earhooks, and integrated microphone and controls for phone calls, volume, and music playback

DYNAMIC AUDIO ENHANCEMENT

On-the-fly audio adjustment with three EQ modes:

NATURAL:

No audio enhancement

BASS BOOST:

Enhances bass response and depth to create more impact and immersion

VOCAL BOOST:

Boosts speech and vocals for more clarity and intelligibility
